

TABLE OF CONTENTS

Chapter No.	Title	Page No.
1	Chapter 1: Foundations of Human Resource Management in Engineering Organizations 1.1 Evolution and Concept of Human Resource Management 1.2 Nature, Scope, and Objectives of HRM 1.3 Functions of Human Resource Management 1.4 Strategic Role of HRM in Engineering Industries 1.5 HRM Challenges in Engineering and Manufacturing Sectors 1.6 Contemporary Trends in Human Resource Practices	01-41
2	Human Resource Planning and Workforce Analytics 2.1 Human Resource Planning: Concepts and Importance 2.2 Workforce Forecasting and Demand Analysis 2.3 Competency Mapping and Skill Gap Assessment 2.4 Workforce Scheduling and Capacity Planning 2.5 Human Resource Information Systems (HRIS) 2.6 HR Analytics and Predictive Decision-Making	42-91
3	Recruitment, Selection, and Talent Acquisition for Technical Roles 3.1 Recruitment Policies and Strategies 3.2 Talent Acquisition in Engineering Organizations 3.3 Campus Recruitment and Industry-Institute Collaboration 3.4 Technical Assessment and Evaluation Methods 3.5 Selection Procedures and Interview Techniques 3.6 Digital Recruitment, Employer Branding, and E-Recruitment	92-135
4	Training, Skill Development, and Knowledge Management 4.1 Training and Development: Concepts and Objectives 4.2 Technical Skill Development Programs 4.3 Leadership and Managerial Development	136-174

	<p>4.4 Reskilling and Upskilling in Emerging Technologies</p> <p>4.5 Knowledge Management Systems and Organizational Learning</p> <p>4.6 Knowledge Transfer, Mentoring, and Succession Planning</p>	
5	<p>Performance Management and Productivity Enhancement</p> <p>5.1 Performance Management Framework and Objectives</p> <p>5.2 Key Performance Indicators and Productivity Metrics</p> <p>5.3 Performance Appraisal Systems and Evaluation Techniques</p> <p>5.4 Employee Productivity and Operational Efficiency</p> <p>5.5 Continuous Improvement and Quality Management Practices</p> <p>5.6 Employee Engagement and High-Performance Work Systems</p>	175-216
6	<p>Compensation, Rewards, and Employee Motivation in Engineering Sectors</p> <p>6.1 Compensation Management and Wage Administration</p> <p>6.2 Salary Structures and Incentive Plans</p> <p>6.3 Employee Benefits, Welfare, and Retention Strategies</p> <p>6.4 Reward Management and Recognition Systems</p> <p>6.5 Motivation Theories and Their Industrial Applications</p> <p>6.6 Career Planning and Employee Satisfaction</p>	217-260
7	<p>Industrial Relations, Labour Laws, and Workplace Ethics</p> <p>7.1 Industrial Relations and Employee Relations Management</p> <p>7.2 Trade Unions and Collective Bargaining Practices</p> <p>7.3 Grievance Redressal and Conflict Resolution Mechanisms</p> <p>7.4 Labour Legislation and Statutory Compliance</p> <p>7.5 Occupational Health, Safety, and Risk Management</p> <p>7.6 Workplace Ethics, Corporate Governance, and Social Responsibility</p>	261-302
8	<p>Emerging Trends in HRM for Engineering Organizations</p> <p>8.1 Artificial Intelligence and Automation in HR Functions</p> <p>8.2 Human Resource Management in Industry 4.0</p>	303-345

	8.3 Remote Workforce and Hybrid Engineering Teams 8.4 Diversity, Equity, and Inclusion in Technical Workplaces 8.5 Sustainable HR Practices and Green Human Resource Management 8.6 Future Challenges and Strategic Transformation of HRM	
	Appendices Appendix A – Human Resource Policies and Documentation Appendix B – HR Metrics, Forms, and Performance Templates Appendix C – Case Studies in Engineering Human Resource Management Appendix D – Digital HR Tools and HRIS Applications	346-354
	Supplementary Sections Bibliography Glossary of HRM and Engineering Terms Index	355-364
