TABLE OF CONTENTS

Chapter No. **Title** **Page No.**

PART 1: FUNDAMENTALS OF MANUFACTURING

1 Introduction to Manufacturing Technology 1
2 Engineering Materials and Properties 8
3 Metrology and Quality Control 16

PART 2: TRADITIONAL MANUFACTURING PROCESSES

4 Casting and Solidification 25
5 Forming Processes 31
6 Machining Processes 38
7 Joining Processes 48

PART 3: ADVANCED MANUFACTURING PROCESSES

8 Non-Traditional Machining 55
9 Additive Manufacturing (3D Printing) 63
10 Micro- and Nano-Manufacturing 69
11 Advanced Surface Engineering 75

PART 4: MANUFACTURING SYSTEMS AND AUTOMATION

12 CNC and Computer-Aided Manufacturing (CAM) 81
13 Industrial Robotics and Automation 87
14 Flexible Manufacturing Systems (FMS) 93
15 Industry 4.0 in Manufacturing 100

PART 5: ADVANCED TOPICS IN MANUFACTURING

16 Sustainable and Green Manufacturing 109
17 Artificial Intelligence and Machine Learning in Manufacturing 116
18 Supply Chain and Lean Manufacturing 123

PART 6: APPLICATIONS AND CASE STUDIES

19 Automotive Manufacturing 131

20 Aerospace and Defense Manufacturing 140

21 Biomedical and Healthcare Manufacturing 150

PART 7: LABORATORY WORK AND PROJECTS

22 Practical Experiments in Manufacturing Technology 161

23 Capstone Projects 170

24 Appendices 175
