

TABLE OF CONTENTS

Chapter No.	Title	Page No.
1	Introduction to Environmental Engineering	01-17
	1.1 Overview of Environmental Engineering 1.2 Historical Development of Environmental Engineering 1.3 Global and Local Environmental Challenges 1.4 Sustainability and Sustainable Development	
2	Environmental Pollution	18-36
	2.1 Types of Pollution 2.2 Sources of Pollution 2.3 Environmental Impacts of Pollution 2.4 Pollution Control and Management	
3	Water Quality and Treatment	37-54
	3.1 Water Resources and Distribution 3.2 Water Quality Parameters 3.3 Water Treatment Methods 3.4 Wastewater Treatment Plants (WWTP)	
4	Air Quality Management	55-70
	4.1 Atmospheric Composition and Structure 4.2 Air Pollution and Its Sources 4.3 Air Quality Monitoring and Standards 4.4 Air Pollution Control Technologies	
5	Solid and Hazardous Waste Management	71-84
	5.1 Types of Solid Waste 5.2 Waste Collection and Transportation 5.3 Waste Treatment and Disposal 5.4 Hazardous Waste Management	
6	Renewable Energy and Environmental Engineering	85-95
	6.1 Overview of Renewable Energy Sources 6.2 Energy Conversion and Storage Technologies 6.3 Environmental Impacts of Energy Production 6.4 Energy Efficiency in Engineering	

7	Environmental Impact Assessment (EIA)	96-104
	7.1 Introduction to EIA 7.2 EIA Methodologies and Tools 7.3 Social and Economic Impacts 7.4 EIA Case Studies	
8	Environmental Engineering in Urban Planning	105-113
	8.1 Urbanization and Environmental Challenges 8.2 Urban Infrastructure and Environmental Engineering 8.3 Climate Change Adaptation and Resilience 8.4 Environmental Policies for Urban Development	
9	Environmental Regulations and Policy	114-130
	9.1 Environmental Laws and Regulations 9.2 Policy Development and Environmental Governance 9.3 Corporate Social Responsibility (CSR) and Environmental Stewardship 9.4 Global Environmental Governance	
10	Emerging Trends in Environmental Engineering	131-145
	10.1 Green Engineering and Sustainable Design 10.2 Environmental Monitoring and Remote Sensing Technologies 10.3 Climate Change Mitigation and Adaptation 10.4 Future of Environmental Engineering
