

TABLE OF CONTENTS

CHAPTER No.	TITLE	PAGE NO.
I	INTRODUCTION TO CLOUD INFRASTRUCTURE AND SECURITY CHALLENGES	01-27
	1.1 Overview of Cloud Computing: IaaS, PaaS, SaaS	
	1.2 Cloud Architecture and Components (Compute, Storage, Network)	
	1.3 Shared Responsibility Model and Threat Surface	
	1.4 Common Security Threats in Cloud Environments	
	1.5 Limitations of Traditional Security Approaches	
	1.6 Need for Proactive and Intelligent Security Models	
II	FUNDAMENTALS OF ARTIFICIAL INTELLIGENCE IN CYBERSECURITY	28-53
	2.1 Basics of AI, ML, and Deep Learning	
	2.2 Supervised vs. Unsupervised Learning for Threat Detection	
	2.3 Role of NLP, Anomaly Detection, and Pattern Recognition	
	2.4 AI vs. Rule-Based Security Systems	
	2.5 Overview of Data Requirements for AI-Driven Security Systems	
III	AI FOR THREAT DETECTION AND INTRUSION PREVENTION	54-75
	3.1 AI-Based Intrusion Detection Systems (IDS) and Intrusion Prevention Systems (IPS)	
	3.2 Real-Time Log Analysis using AI (SIEM + ML Integration)	
	3.3 Identifying Unknown Threats and Zero-Day Attacks using Unsupervised Learning	
	3.4 Threat Intelligence Platforms with AI Support	

IV	SECURING IDENTITY, ACCESS, AND AUTHENTICATION WITH AI	76-99
	4.1 Identity and Access Management (IAM) in Cloud Environments	
	4.2 AI-Enhanced Access Control Systems (Context-Aware Access)	
	4.3 Behavioral Biometrics and Anomaly Detection in Authentication	
	4.4 Predicting and Preventing Insider Threats using ML	
	4.5 Adaptive Multi-Factor Authentication using AI	
V	AI IN CLOUD CONFIGURATION MANAGEMENT AND COMPLIANCE	100-122
	5.1 Misconfiguration Detection using Machine Learning	
	5.2 AI-based Compliance Auditing Tools	
	5.3 Automated Policy Enforcement	
	5.4 AI-Assisted Patch Management and System Hardening	
	5.5 Security Configuration Baselines using AI Models	
VI	AI FOR DATA SECURITY AND PRIVACY IN CLOUD	123-144
	6.1 Data Classification and Sensitive Data Discovery using AI	
	6.2 AI-Powered Data Loss Prevention (DLP) Mechanisms	
	6.3 Encryption and Tokenization Strategies with Intelligent Monitoring	
	6.4 Privacy-Preserving AI Techniques (Federated Learning, Differential Privacy)	
	6.5 AI Tools for GDPR, HIPAA, and Other Regulation Compliance	
VII	FUTURE TRENDS AND CHALLENGES IN AI-DRIVEN CLOUD SECURITY	145-167
	7.1 Emerging Threats and AI Countermeasures	
	7.2 Adversarial AI and Model Poisoning in Cloud Security	
	7.3 Ethical Considerations in AI Cybersecurity	
	7.4 Integration of AI with DevSecOps in Cloud Environments	
	7.5 The Future of Autonomous Cloud Security Systems (Self-Healing Clouds)	
	7.6 Research Directions and Open Problems
